Reduction Works For the Tuscarora Chief.

### A BONANZA NEVADA MINE

FROM WHICH RICH ORE SHIP-MENTS ARE MADE.

Grand Prize Development - Import ant Find of Metallic Quicksilver-Sunshine Stronger-The New Exchange-Salt Wash Copper-The Brooklyn-Eureka-Mining Notes.

Dr. E. D. Woodruff, president of the Tuscarora Chief Mining company, accompanied by B. F. Redman one of the officers of the association, will leave this morning for San Francisco, for the purpose of arranging for the purchase reduction works for the company's

of reduction worse for the commany's Nevada property, located at Tuscarora. This plant, The Herald is informed, is to embrace a ten-stamp mill in combination with cyanide works, the intention being to install the plant at the carliest possible moment this spring, soon after which, it is believed, the later will be or a paying basis as lerge. carliest persible moment this spring, soon after which, it is believed, the inline will be on a paying basis, as large bodies of good milling ore are exposed in the mine, besides which the property can boast of some of the finest chutes of high-grade ore to be found in the camp, from which shipments have already been made to this city, the sales of which have kept the treasury of the company in good condition, and it is learned that as soon as the roads settle and are open for travel, a two-car lot of this rich mineral will be forwarded at once to the market, development proving almost conclusively the permanency and continuity of this strata of high-grade gold and sliver ore.

From San Francisco Dr. Woodruff will go on to the southern portion of the state, where he will join his family, it being his intention to remain away a month or more, bringing his wife and children back with him upon his return home.

### CAPITAL PRIZE DEVELOPMENT. Important Find of Metallic Quicksil-

ver in the Tuscarora Extension. J. F. Parsons, one of the veterans and pioneers of the grand old mining camp

pioneers of the grand old mining camp of Tuscarora, Nev., is in the city on important mining business.

Mr. Parsons has been identified with the Tuscarora and the big mines of the camp ever since it sprung into prominence, at least twenty years ago, as one of the greatest wealth-producing sections of this intermountain country, and he still banks on the future outcome of the mines of the district as confidently as if he had a reliable guarantee as to what the year will bring forth in the way of new discoveries and a heavy mineral output.

Having had charge of the Grand Prize, above the Dexter, during the years when it produced so many millions in the precious metals, he has al-

years when it produced so hany int-lions in the precious metals, he has al-ways been confident that he could find the lost vein which was shut square off in the Grand Prize workings by a hig fault, and, to carry out his theory in this regard, he has secured a group of tims regard, as has scaled a good three claims, embracing the Cabital Prize, the Tucson and the Sibley, believed to be on the extension of the Grand Prize ledge, his enterprise being rewarded by the uncovering of the vein at a depth of only 121 feet, the zone being over 145 feet in width, so far as ex-plored, and now he is sanguine that he has an embryotic bonanza on his hands, and will continue further operations with greater vigor than ever.

with greater vigor than ever.

One of the important discoveries to be made at Tuscirora of late, according to Mr. Parsons, is the finding of metallic quicksilver and cinnabar in the property of the Tuscarora Extension company of this city. This ledge is three feet in width, and carries 10 percent in quicksilver, which would amount to about \$100 to the ton, besides which the one runs a few dollars in gold. The find is looked upon as an important one in that section and elsewhere.

Daisy was in ready demand, and mode numerous transfers at figures given below. Daily West dropped a small block at a quotation above the \$10 mark, and Four Aces was a dealer at \$3% cents. The dealers were out after Geyser-Marion, which changed hands at 75% cents, joe Bowers being quite a heavy trader at 19% cents, while Joe Bowers Extension was in demand at 9% cents and Midnight Bowers at 4%. Northern Light posted sales at 60 cents, while Star Consolidated made additional gains and was a trader at \$1.06% and \$1.07. South Swansea also participated in the

Favorite With Dealers. Stocks were active and in good form

during the call yesterday on the floor of the Salt Lake exchange, merited gains being noted in a number of se-curities, while but a few declines were noted, the tone of the market being

good.
At the opening Ajax found buyers at \$1.36, Daisy being in good demand with transfers at 43 and 45½ cents, a block going at 43½ cents, buyer 33 days. Daiton & Lark was a dealer at 16½ cents and Four Aces at 42 and 25½ cents. Mammoth disclosed considerable activities and was transfer at 42 and 51%. Mammoth disclosed considerable activity and was traded in at \$1.75 and \$1.75. Lower Mammoth recorded fractional gains, and selling up to \$1½ cents. Northern Light maintained former quotations fairly well and was traded in at figures given below. Omaha being wanted at 44 cents. Star Consolidated made substantial gains and was dealt in at \$1.94 and \$1.65, the closing quetations being \$1.06 bid and \$1.07 asked. Sunshine was very strong and on the Sunshine was very strong and on the up-grade, sales being posted at 97 cents. Showers Consolidated being a favority with the dealers, while Sacramento touched 50% cents in the dealing and was moving upward at the close. Joe Bowers was a favorite, although no could be strong as during the previous quite as strong as during the previous call, transfers being chronicled from 20% down to 19½ cents. Joe Bowers Extension was in good demand at 9½ cents. May Day made up lost ground and recorded gains of 5 cents in the

bidding.

SALT WASH COPPER.

Prospector Talbert Makes a Fortunate Discovery.

A. J. Talbert, a prospector, who has been working in the new Sait Wash copper district, was in yesterday to record mining claims, says the Grand Valley Times. He says there is much excitement over there over the showing already made, and believes they have ore that can be shipped at a profit, and that it will be commenced within a month. He showed us returns on three assays, the highest 62.8 per cent copper and eight ounces silver, and the lowest 25.6 per cent copper and seven ounces silver. It is about twenty-five miles from the claims to the railroad. been working in the new Sait Wash !

Reports from Paradox say there is a rush of prospectors there, and there is a great demand for lumber for building purposes. This is simply what may be expected all over La Saile mountain

country within the next year.

W. A. Wilson of Salt Lake City returned Monday from a visit to the copper districts. He visited the Loose, Taylor & Skews property at Lisbon. He expressed a high opinion of the districts.

i. C. Case is in from the Copper dis-trict, where he has been doing develop-ment work on a number of claims this winter. Slow as has been the district to get on a shipping basis, he says it is steadily improving and will soon prove to be one of the largest copper-produc-ing sections of the country.

### The Brooklyn-Eureka.

Hudson Smith, the well-known mining operator, who is in the city from

regular call piled up a goodly lot of Brooklyn-Eureka is on an extension of the great mineral zone or belt which bas made the mines of Eureka so famous in the past, and now that the outlook is so promising, he will push operations with greater vigor than ever before. Daisy was in ready demand, and made

### Sohr at Los Angeles. (Los Angeles Express.)

Max Sohr, who is registered at the Annex from Salt Lake City, is suffering with a fractured shinbone.

The accident occurred at Pasadena several days ago as Sohr was alighting business of the hour, and was trans-ferred at \$1.23. Sunbeam finding buyers nue. The car had stopped to let him off at the Green hotel, and started up before he had fairly alighted, and he fell. He visited Pasadena yesterday, and the Los Angeles & Pasadena. Railway company agreed to pay dam-

ages.
Sohr is credited, too, with having discovered a substitute for gold. Of this discovery he says: "After eight years' discovery he says: "After eight years work in my laboratory, I have found a process by which I can manufacture a metal which bears all the tests of acid effect, durability and malleability of six-karat gold. The process is very simple. Antimony differs from gold in simple. Antimony differs from gold in being lead color, lighter and not so strong. It is scarcer than gold. It is found in pockets in slate regions. My manufacture would cost about as much as brass costs."

# Silver and Lead.

The local metal market vesterday was coverned by the following quotations:

Copper, casting, 151/2 cents. Ore and Bullion. The ore and bullion receipts yester-

day were as follows: McCornick & Co., bullion, \$3,050; ores, T. R. Jones & Co., ores, \$12,500; bul-

Wells, Fargo & Co., bullion, \$4,266. Mining Notes and Personals.

# It is rumored on the street that a deal s on involving the sale of the Daisy mine on the West Dip to heavy mining men

of this city.

At the reorganization of the directory
of the Ajax Mining company, which occurred a day or two ago, Sam Newhouse
was elected president of the association. W. F. Smith, manager of the Midnight Bowers, who has just returned from a visit to this Tintic property, speaks in the highest terms of the favorable indi-cations as disclosed in its workings. 6,00 50,00 1,05 ,12 1,40 ,46 ,79% 9,00 1,77%

the mignest terms of the favorable indications as disclosed in its workings.

John B. Farish, the representative of the
London Exploration company, who visited
Tinitic a few days ago, took a look
through the underground workings of the
Star Consolidated mine, near Mammoth.

The machinery for the new holst for
the Congor mine, in the Dalton & Lark
country, above Bingham, will be delivered
on the property sometime this week, and
it will not be long after before it will be
installed and in operation.

The Star Consolidated marketed two
cars of ore yesterday, which sold on assay controls showing metallic values of
\$12 \text{ gold, 15 ounces silver and 7 per cent
lead to the ton. Another two-carload lot
will be shipped from the mine this week.

Among the shippers on the market yes-

will be snipped from the mine this week.

Among the shippers on the market yesterday were the Grand Central, with twelve cars; the Mammoth, with seven; the Oid Spanish, with eight; the Sampson, with one; the Utah Consolidated, with one, and the Oid Telegraph, with four lots.

It is learned that the Petro Mining It is learned that the Petro Mining company, operating at Bingham, has made application to list its stock on the board of the old exchange. This is a property of merit, and it is believed that the shares of the association will be popular with the stock-dealing public.

A gentleman who is just in from Sunshine states that excellent progress is being made in the development of the Electric group near that place and that the workings are in a fine body of low-grade gold ore at a depth of only eighty feet. It is understood that the company is in good finuncial condition.

The Horn Silver had two cars of con-

is in good financial condition.

The Horn Silver had two cars of concentrates and five of crude ore on the market vesterday. Manager P. T. Farnswort, will go out to the mine this morning. In speaking of the copper faces in the mine, Mr. Farnsworth states that

the outlook for the property is most flattering.

P. A. McKenzie, who has had charge of the underground workings of the Dexter mine for the last year or so, is in the city. Mr. McKenza: has first returned from a visit of inspection to several mining properties in Beaver county, and he informs The Heraid that he cons.ders this to be one of the best mineralized sections in the state.

George S. Wedgewood, the general western representative of the American Book company, arrived at the Knutsford yesterday from Denver in company with G. G. Burton of Topeka Kan. The purpose of their trip is to consult with Bert Seaboldt with reference to the sale and development of some gilsonite deposits in eastern Utah.

A. Buckbee, the able superintendent and manger of the Sunbeam, near Silver City, went out to the mine last night. Mr. Buckbee is pushing work vigorously in the development of this promising and valuable property, and is satisfied that when the time comes he will have a great producer and dividend-payer on his hands instead of a prospect.

The directors of the Utah Saltpetre company, at a meeting heid Monday afternoon, approved of the contract let to Otto Hudson for the performance of 100 feet in the development of the property of the company, which is located in Big Cottonwood mining district. Mr. Hudson will sink a shaft to the depth of 100 feet on the saltpetre ledge embraced in the company's holdings.

Joe Bowers was not quite as strong on the curry vesterday as on the previous

on the saltpetre ledge embraced in the company's holdings.

Joe Bowers was not quite as strong on the curb yesterday as on the previous day, although it is stated that men of means have any amount of money ready to take in the stock of the company, the idea being to break it as low as possible before loading up. Lower Mammoth was a seller on the curb at 82 cents; Sunshine was strong while Star Consolidated continued its upward course.

J. D. Shaffer, the manager of the South Bingham Minling company, will leave for the mine this morning for the purpose of inangurating work in the thorough development of this promising property, which is located about a mile southeast of the Congor copper mine. The South Bingham has been a shipper in the past and even now, in its old workings, good bodies of silver, lead and gold orea are exposed ready for extraction.

Word comes from Firsco to the effect that the Washington mine on the east side of Horn Silver mountain, gives every promise of opening out into a heavy producer in time. The incline shaft being sunk in the development of this property has reached a depth of 20 feet, the bottom being in a fine body of good ore, another supment from which will soon find its way to the Salt Lake market.

The Copper Ranch Mining company has appointed A. Murphy, superintendent of

find its way to the Salt Lake market.

The Copper Ranch Mining company has appointed A. Murphy superintendent of its holdings in Rocky district in Beaver county, and it is believed that under his able management the property will soon rank as a heavy producer of the red metal. Mr. Murphy will leave within a few days for the south to enter upon his duties. The Copper Ranch adjoins the Montreal copper mine, a few miles below Milford, and has all the carmarks of being a big mine with development.

George Pavne of Syracuse is in the city

ing a big mine with development.

George Payne of Syracuse is in the city on mining business. Mr. Payne is interested in a number of promising copper locations made on Antelope island, and he states that miners from all over the country are flocking to this new bonanzaland and that many locations are being made. Already forty or fifty mining men are encamped on the classic shores of the lake and are making a careful examination of the mineralization of the island, while a big crowd went over yesterday, and Mr. Payne will take over another boatload today. It is also learned that big mining men from Montana are heading that way, while several Salt Lakers of prominence expect to leave for the scene of excitement within a few days.

Eureka, is highly pleased with the recent showing in the ground north of Eureka guich owned by the Brooklyn-Eureka Mining company, and he states that he is fully satisfied that with more extensive development this property will be added to the producing and paying mines of the camp.

Mr. Smith, who has the management of this prospective bonanza, informs The Herald that the incline shaft beling sunk in its exploration has already is start weak, nervous and bloodless reco is impossible to mage a better medicine for the stomach, liver, kidneys and blood. A few doses of the Bitters will start weak, nervous and bloodless people on the road to strength. A regular course of treatment will bring back the pink to the cheeks and sparkle to the eye. Sleep will come naturally, and it will be refreshing and healthful. Dyspensia indirection and constitution pepsia, indigestion and constitution will be completely banished, and the blessings of true health bestowed blessings of true health bestowed. Never take a substitute for this perfect

# PROMOTION OF SCHLEY.

Will Rank Higher Than Sampson Under Reorganization.

New York, March 28.-A disputch to the Tribune from Washington says: The promotion of Commodores Remey Watson and Schley to be rear admir als hangs on a few words from Rear Admiral Sampson, now at Kingston, Jamaica, to whom the navy depurt-ment telegraphed today, directing him to send at once his requisite report on the qualifications of these three offithe qualifications of these three officers, who are now his seniors, as they
were a year ago, but who were temporarily under his command in the
war with Spain. This remarkable
anomalous condition of affairs arises
from the meeting at the navy department of the special examining board
appointed by Secretary Long, consisting of three ranking rear admirals of
the service, McNair, Howell and Hewison, to pass on the qualifications for
advancement to the next higher grade
of the fourteen officers in line to fill
vacancies due to the creation by congress, under the personnel bill, of
eighteen rear admirals. These officers,
in the order of their rank, are Commoin the order of their rank, are Commodores Remey, Farquhar, Watson, Robinson, Schley and Casey, and Captains Sampson, Cromwell, Philip, Higginson, Picking, Rodgers, Kempff and Sum-

When the board met it speedlly approved the records of eleven of these officers as fleet flag officers. That of Commodore Robinson was also com-plete, but, unfortunately, the medical piete, but, unfortunately, he medical examiners had found him physically incapacitated for further duty, and he will, therefore, be placed on the retired list tomorrow on his own application, with the rank of rear admiral. To the vacancy thus made, Captain F. B. Day will succeed, and he will receive prompt promption under a recess approximation of the property of

such examinations for promotion. In the case of Captain Sumner, whose record was open to question on ac-count of the slight mishap to the Co-lumbia in the Southampton dry dock several years ago, the board considered that the suspension of punishment constituted an offset to the courtmar-tial sentence for negligence, and his fitness for fleet command was ordered certified to the president.

# Spain's Greatest Need.

Mr. R. P. Olivia of Barcelona, Spain, spends his winters at Alken, S. C. Weak nerves had caused severe pains in the back of his head. On using Electric Bitters, America's greatest Blood and Nerve Remedy, all pain soon left him. He says this grand medicine is what his country needs. All America was that it cures liver and kidney. what his country needs. # **ይ**ቀቀቀቀቀቀቀቀቀቀቀቀቀቀቀቀቀቀቀቀ BONDS OF SYMPATHY

Women tell Mrs. Pinkham the whole truth about themselves and that is the reason she is able to help them.

Nearly every woman suffers or has suffered from some trouble of the delicate organism that makes her a

woman. The gratitude of those who have been relieved of backache, racking pains or serious displacement, is boundless.

From grateful women everywhere come to Mrs. Pinkham most earnest words of thankfulness for vanished pain and restored health.

Many women have wasted years in almost constant agony, spent money freely in treatment and travel, and finally learning of Mrs. Pinkham's great knowledge, have written to her and secured without cost advice that helped them back to health.

In this way there is formed a bond of sympathy with an ever-widening circle.

Wherever women meet, they talk about the great virtue of Lydia E. Pinkham's Vegetable Compound.

Mrs. WEEDEN Says, "Mrs. Pinkham Saved My Life,"

DEAR MRS. PINKHAM:-When I wrote to you two or three months ago about my poor health, I was com-pletely discouraged. I had tried dif-ferent kinds of medicine, and had been to a number of doctors, but could

get no relief. A friend of mine advised me to write to you, and I did so. I had a great deal of trouble write to you, and I didso. I had a great deal of trouble with my stomach, could not eat hardly any solid food, and even broths distressed me. I was growing poor and losing strength every day. I was so weak that I could hardly sit up, and was very nervous and down-hearted. Had backache and headache most of the time, also falling of the womb, trembling spells and dizziness. After receiving your letter, I began taking your Vegetable Compound, Blood Purifier and Liver Pills. I had taken them but a few days before I began to feel better, and have been gaining very fast ever since. I shall advise all my friends who are sick to write to you. I thank you for what you have done for me. You have certainly aved my life and may Heaven bless you.—Mrs. Charles D. Weeden, Bridgewater Corners, Vt.

Perfect reliance on the sacredness of the confidential relations with Mrs. Pinkham, coupled with the feeling that they are telling

their story to a woman, leads women to tell to her the whole truth, thus enabling her to give most intelligent counsel. Mrs. Pinkham's address is Lynn, Mass. A woman best understands a woman's ills.

Lydia E. Pinkham's Vegetable Compound A Woman's Remedy for Woman's Ills.

Cabinet Crisis Caused a Decided Flutter.

COOPER WANTS GOOD JOB

GAME OF FREEZE-OUT THAT WENT WRONG.

Cabinet Positions Are the Best Paying Posts In the Islands-The Present Incumbents Want to Hold On to a Good Thing-President Dole's Tactics.

(Special Correspondence.) Honolulu, March 18.-There are a number of good political jobs in Hawall open to statesmen from Ohlo or elsewhere, who have good, strong political backing or a pull with McKinley. prompt promotion under a recess appointment by the president.

It is the understanding that in the cases of ten of the candidates the hoard acted with the routine usual in when congress finally passes legislations. when congress finally passes legisla tion for the islands, and we know what political rights we have. They are so good, in fact, that the squabble over them has just precipitated a cabinet

The best of them are the cabinet positions, with the title of minister, and a salary of \$5,000, appropriations for which have been made up to Jan. 1, 1900, and the money is in the treasury

The Newlands resolution knocked out one of them, but it did not knock out the salary or the appropriation which had aiready been made by the legisla-ture for two years, and that is what ture for two years, and that is what started the row. The position that was knocked out by the Newlands resolution was that of minister of foreign affairs. The man who held the position and who holds it yet is Heary E. Cooper, who came here shortly before the overthrow of the monarchy with most of his worldly possessions in a small hand satchet, it is said. He read the proclamation that announced the end of the monarchy and the establishment of the provisional government been in office ever since. Now he has just finished building a magnificent residence and has, if not money to burn, at least what most men would call a competence. But lately he seems to have been getting a little afraid of his job. It is so openly, notoriously and unmissible in the second of th

Captain J. A. King, a bluff old sea cuptain, whom everybody likes and whom everybody trusts. But he is not an in-triguer, and he does not belong to the "family compact." He has been ininister of the interior ever since the mor-archy was overthrown, and it is prob-able that his personal influence has been a greater source of strength to the provision government and the republic than any other one single element. But Cooper wants his place, and has been working to get it. But the only way he could get it was to get King out, but the only way to get King out was to force him to resign. It was in the at-tempt to force him to resign that the cabinet crisis came about.

Cooper, aided and abetted by Attor-ney General Smith, proposes in the cab-ing the cabinet force.

net that certain appropriations public improvements on the island of Hawall should be taken out of the hands of the minister of the interior and put in the hands of a local board in Hilo. The pretense was that this would be a measure of home rule for the island of Hawali. The real purpose the island of Hawau, The real purpose was to humiliate King and force him to resign. The newspapers exposed the scheme. The community arose in Indignation and counseled King not to resign. The scheme was frustrated, and Attorney General Smith has had the grace to resign, though he based his resignation on the assertion that an-other member of the cabinet had given

publicity to the proposed action and had imputed sinister motives.

The vacancy has not yet been filled, and President McKinley, under the Newlands resolution, can step in and fill it any time, though President Dole claims a power of attorney from Me. claims a power of attorney from Mc-Kinley to fill it. Everybody here be-lieves that President Dole intends to appoint Cooper to the position, though he does not like to do it at once and so furnish the conclusive proof of the in-trigue to put Cooper in a permanent position. Rumors have been started that the position has been offered to this man and that, but that they have declined, the purpose of this being un-derstood to be to make it appear that he can get no man of sufficient experi-ence to acept it and hence that he is practically forced to appoint Cooper. If Cooper is appointed it will be

against the wishes of nine-tenths of the people of the islands. There is real regret that Smith should have got him-self into a position where he was forced to resign. For although he lucks many elements of personal popularity, he is recognized as a capable man and a hard

been getting a little afraid of his job lt is so openly, notoriously and unmistakably a sinecure, that it is quite possible that the next session of the legislature will abolish it. He would like to get into an office that has some duties connected with it, so that he would not have to give it un if the content of the c to get into an office that has some duties connected with it, so that he would not have to give it up if the legislature that the men who are in office when the islands finally come wholly into the the islands finally come wholly into the Union will stand the best chance of staying in office. The job he wants is minister of the interior. That portfolic has control of all the appropriations for public works. He was minister of the

QUARANTINE AT FORT DOUGLAS HAS BEEN RAISED.

Entertainment Given By the Frederick Douglass Literary Society Last Night-Departure of Troops.

The companies, B, D and M, who have been under orders since the 9th of March, to proceed to Fort Harrison, Mont., Fort Spokane, Wash., and Vancouver Barracks, Wash, will leave Saturday, April 1, for their new sta-The headquarters, band, companies
